-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-8, 11 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ross et al. 6,610,770, in view of Beall et al. 5,804,613, further in view of Ross et al. 6,380,295.
3. All references have been discussed already. However, the examiner overlooked the fact that the primary reference mentions dimethyl bis(hydrogenated tallow) ammonium chloride in column 8, lines 41-46, making the second Ross et al. patent unnecessary. The rejection is maintained for the reasons elucidated in the following paragraph.

Response to Arguments

4. Applicant's arguments filed 9/26/06 have been fully considered but they are not persuasive. It is indubitable that the specification of Ross et al. ('770) lists ingredient (c) i.e. the organic materials, which can be organic acids, as optional components. However, claim 1 positively claims said ingredient (c) and claim 3 identifies said ingredient (c) as carboxylic acids. The secondary references, which are the reason for the obviousness rejection not being an anticipation rejection, are cited only to show that the dimensions of the clay and the intercalant used are obvious. Were the unexpected results due to either the particle size of the clay, the examiner would have issued the application a long time ago. However, all ingredients, which are involved in the claims

Art Unit: 1714

for unexpected results are positively claimed by the primary reference, which means that the clay, the polymer and the acids are all necessary for inventive composition of Ross et al. ('770). Therefore, applicants' result are not unexpected, but inherent in the composition of the primary reference. The rejection is maintained.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peter Szekely whose telephone number is (571) 272-1124. The examiner can normally be reached on 7:00 a.m.-5:30 p.m. Tuesday-Friday.
